

The Lightside UFO Study Group

www.TheLightside.org

Beginning with our first meeting for 2012 The Lightside meetings will be conducted with a major topic for each meeting with the first hour of the meeting dedicated to news and/or anything you want to share.

The topics we have selected for the first three months are as follows:

January – Early Contactees
February – UFOs & Sightings
March – Contact verses Abduction

Please feel free to share on these topics.

We realize that many, many topics tie into the end time scenario in which we are living. We are open to suggestions for future topics after the first three. If no appropriate topics come in after we will select the topics and announce them at a later time.

Part of our mission is to reach as many as possible with the message that there are positive ets out in space and what their messages are to humanity.

We would also like to help convey the message of light and hope to the people of the planet at this time in Earth's history and believe that each person has the ability to make a difference.
