

Dawn's Story

The following is Dawn's alien abduction resistance story in her own words:

"Umm...I have really never talked about what has happened to me, or my family. And Sandy asked me to come and tell my story, even though it was really, really scary. My belief in God protected us, I truly believe that.

I'm a single mother with two children. At the time my daughter was four and my son was two. My first experience happened about 13 years ago.

I went to bed one night, it was about eleven o'clock and the kids were asleep. And all of a sudden I had this unbelievable negative feeling that there was a negative presence that actual, it overwhelmed me.

It scared me so much that I tried to move and couldn't move. I immediately started praying to God, "Please let me move, let me get my body out of this bed" and I did. I forced myself to get up and go across the hall and I saw my daughter.

(Long deep inhale and exhale) God this is unbel...I don't really talk about this a whole lot because it was just very traumatic for me. But there was a light shining down upon her. And all around her were these things, aliens, whatever. Actually I had never seen one or had researched aliens. This, these were things in my daughter's room, and they were evil and when I touched one of them, they left. Next thing I remember is in my bed and I jumped out of bed and I ran to check my children and they were fine.

The next day I called Sandy because this is on a different level. It's not something that I could come up to and say, "You're not coming in my house anymore." The only way that you can fight these people is through your relationship with God, with Jesus, with whomever you believe in. Praying and being solid in your belief. We also blessed my house. Went around, blessed my house. And for a very, very many years I didn't have any more, they stayed out of my home. They stayed out of our lives.

Unfortunately a couple of months ago, my daughter is now eighteen. She came to me one morning and said, "Mom I don't want to sleep in my bedroom anymore." And I said, "Well what happened?" And she said, "There's something in there. There was a presence in my room," and that's all she told me to begin with and I was like, okay. She's like, "Mom it's evil." And I said "Fine, let's get a crucifix, we'll put it in your room." And I have a huge one that has a light on it and I put a candle in there and it burned all night long which was kind of amazing to me because it was a six hour candle and twelve hours later it was still lit. I believe God was watching over her that night. So the next night she would go to bed, light her candle everything was fine. Did I believe that she had actually seen something? It didn't matter. She believed it, whether I saw it or not, she is very spiritual. She prayed. She felt good.

So a couple of weeks later she was gone and I was home alone in my home and it was about 7:00 o'clock at night and I'm on my computer working. And all of a sudden I see this thing walking through my house. And Heidi looks and sounds very much as to what was in our home. I did sit down with my daughter and asked her to really tell me what all happened after I saw this thing in my home. By the way, as soon I saw it, I began to pray and they, it didn't leave. I thought they would, but they didn't. So when I talked to my daughter she told me that it started with a dream that she had. It was a Friday night she said, she dreamt that she came home to our home. She has her own car, pulled in, came into the house and she saw something go down the hallway. She was afraid so she said in my dream I went back out in my car, and she said I didn't want to go in the house any more. She said she woke up the next morning and thought boy that was just a really strange dream. The next night she had the same dream.

This time when she woke up she saw a shadow figure in her corner of her bedroom. She closed her eyes. She said, "Mom, when I opened em' up, it had moved closer and it was closer to my bed. This time I closed my eyes, started praying to God and reached over and grabbed my cell phone and opened up the cell phone so there was light. And when she opened her eyes again it was gone. But she said she felt a bubble of light of God protecting her.

So again after she told me what really had happened and I had seen it we blessed our home again. We haven't seen anything for about a month now, which is good. I feel now the outside of my house is protected right now.

So if any of you have any experiences like this and your like me and your just trying to live your normal life and this weird stuff comes in every once and a while I believe that through prayer God helps and God protects."
